The attached tables and other sample pool analyses, together with all other information presented herein (the "Computational Materials") are privileged and confidential and are intended for use by the addressee only. These Computational Materials are furnished to you solely by Countrywide Securities Corporation ("Countrywide Securities") and not by the issuer of the securities or any of its affiliates (other than Countrywide Securities). The issuer of these securities has not prepared or taken part in the preparation of these materials. Neither Countrywide Securities, the issuer of the securities nor any of its other affiliates makes any representation as to the accuracy or completeness of the information herein. The information herein is preliminary, and will be superseded by the applicable prospectus supplement and by any other information subsequently filed with the Securities and Exchange Commission. The information herein may not be provided by the addressees to any third party other than the addressee's legal, tax, financial and/or accounting advisors for the purposes of evaluating said material.

Numerous assumptions were used in preparing the Computational Materials which may or may not be stated therein. As such, no assurance can be given as to the accuracy, appropriateness or completeness of the Computational Materials in any particular context; or as to whether the Computational Materials and/or the assumptions upon which they are based reflect present market conditions or future market performance. These Computational Materials should not be construed as either projections or predictions or as legal, tax, financial or accounting advice.

Without limiting the foregoing, the collateral information set forth in these Computational Materials, including without limitation the collateral tables which follow, is based only on a sample pool of Mortgage Loans expected to be included in the Trust along with other Mortgage Loans on the Closing Date. In addition, certain Mortgage Loans contained in this sample pool may be deleted from the pool of Mortgage Loans delivered to the Trust on the Closing Date. This sample pool may not necessarily represent a statistically relevant population, notwithstanding any contrary references herein. Although Countrywide Securities believes the information with respect to the sample pool will be representative of the final pool of Mortgage Loans, the collateral characteristics of the final pool may nonetheless vary from the collateral characteristics of the sample pool.

Any yields or weighted average lives shown in the Computational Materials are based on prepayment assumptions and actual prepayment experience may dramatically affect such yields or weighted average lives. In addition, it is possible that prepayments on the underlying assets will occur at rates slower or faster than the rates assumed in the attached Computational Materials. Furthermore, unless otherwise provided, the Computational Materials assume no losses on the underlying assets and no interest shortfall. The specific characteristics of the securities may differ from those shown in the Computational Materials due to differences between the actual underlying assets and the hypothetical assets used in preparing the Computational Materials. The principal amount and designation of any security described in the Computational Materials are subject to change prior to issuance.

Although a registration statement (including the prospectus) relating to the securities discussed in this communication has been filed with the Securities and Exchange Commission and is effective, the final prospectus supplement relating to the securities discussed in this communication has not been filed with the Securities and Exchange Commission. This communication shall not constitute an offer to sell or the solicitation of any offer to buy nor shall there be any sale of the securities discussed in this communication in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state. Prospective purchasers are referred to the final prospectus and prospectus supplement relating to the securities discussed in this communication for definitive Computational Materials on any matter discussed in this communication. A final prospectus and prospectus supplement may be obtained by contacting your Countrywide Securities account representative.

Please be advised that asset-backed securities may not be appropriate for all investors. Potential investors must be willing to assume, among other things, market price volatility, prepayments, yield curve and interest rate risk. Investors should fully consider the risk of an investment in these securities, account representative.

If you have received this communication in error, please notify the sending party immediately by telephone and return the original to such party by mail.

Preliminary Term Sheet

- (1) The principal balance of each Class of Certificates is subject to a +/- 10% variance.
- (2) The Certificates are priced to call. The fixed rate coupons on the Class A-4, Class A-5, Class M-1, Class M-2 and Class B-1 Certificates each increase by 0.50% after the Clean-up Call date.
- (3) Calculated based on an assumed CPR equal to 28%. Actual rates may vary,
- (4) The Class A-IO Certificates are notional amount certificates and will accrue interest on their notional balance at an annual rate of (a) 5.00% during the first 12 months, (b) 4.15% from month 13 up to and including month 18, (c) 1.75% from month 19 up to and including month 24 and (d) commencing in the 25th month, and in each month thereafter, 0.00%.
- (5) Excludes the notional halance of the Class A-10 Certificates.

Transaction Participants

Trust:

Asset-Backed Certificates, Series 2003-S2.

Depositor:

CWABS, Inc. (a limited purpose finance subsidiary of Countrywide Financial Corporation).

Seller:

Countrywide Home Loans, Inc. ("Countrywide").

Master Servicer:

Countrywide Home Loans Servicing LP an affiliate of the Seller.

Underwriter:

Countrywide Securities Corporation (Lead Manager).

Trustee/Custodian:

The Bank of New York, a New York banking corporation.

Relevant Dates

Expected Closing Date:

October [30], 2003.

Sample Pool

Calculation Date:

October 1, 2003.

Cut-off Date:

For each Mortgage Loan delivered to the Trust on the Closing Date, the later of October 1, 2003, or the origination date of such Mortgage Loan.

Stepdown Date:

The earlier to occur of:

- the Distribution Date on which the aggregate principal balance of the Senior Certificates are reduced to zero; and
- (ii) the later to occur of:
 - a. the Distribution Date in November 2006
 - b. the first Distribution Date on which the principal balance of the Senior Certificates is less than or equal to 73.20% of the principal balance of the Mortgage Loans for such Distribution Date.

Interest Accrual Period:

The "Interest Accrual Period" for each Distribution Date with respect to the Certificates (other than the Class A-1 Certificates) will be the calendar month preceding the month in which such Distribution Date occurs (on a 30/360 day basis). The Interest Accrual Period for each Distribution Date with respect to the Class A-1 Certificates will be the period beginning with the previous Distribution Date (or, in the case of the first Distribution Date, the Closing Date) and ending on the day prior to such Distribution Date (on an actual/360 day basis).

Distribution Dates:

The 25th day of each month (or, if not a business day, the next succeeding business day), commencing in November 2003.

The Collateral

Mortgage Loans:

As of the Sample Pool Calculation Date, the aggregate principal balance of the Mortgage Loans was approximately \$486,022,563 (the "Sample Pool"), all of which were fixed rate, closed-end, second lien Mortgage Loans (the 'Mortgage Loans'). It is expected that (a) additional Mortgage Loans may be delivered to the Trust on the Closing Date and (b) certain Mortgage Loans may be pre-paid, become ineligible for transfer to the Trust or may otherwise be deleted from the Sample Pool and therefore may not be delivered to the Trust on the Closing Date. However, it is not expected that the characteristics of the pool of Mortgage Loans delivered to the Trust on the Closing Date will vary materially from the characteristics of the Sample Pool. See the attached collateral descriptions for additional information.

The Certificates

Description of Certificates:

The Trust will issue (a) the Class A-1, Class A-2, Class A-3, Class A-4, Class A-5 (together, the "Class A Certificates") and Class A-IO Certificates (together with the Class A Certificates, the "Senior Certificates"), (b) the Class M-1, Class M-2 and Class B-1 Certificates (collectively, the "Subordinate Certificates" and, together with the Class A Certificates, the "Certificates") and (c) the Class R Certificates.

Non-Offered Certificates: The "Non-Offered Certificates" solely with respect to these computational materials consist of

the Class A-2, Class A-3, Class A-4, Class A-5, Class A-IO, Class M-1, Class M-2, Class B-1 and

Class R Certificates.

Federal Tax Status: It is anticipated that the Certificates will represent ownership of REMIC regular interests for tax

purposes.

Registration: The Certificates will be available in book-entry form through DTC, Clearstream, Luxembourg or

Euroclear.

ERISA Eligibility: The Certificates are expected to be ERISA eligible. Prospective investors must review the related

prospectus and prospectus supplement and consult with their professional advisors for a more

detailed description of these matters prior to investing in the Certificates.

SMMEA Treatment: The Certificates will not constitute "mortgage related securities" for purposes of SMMEA.

Pass-Through Rate: The "Pass-Through Rate" on each Class of Certificates will be equal to the lesser of (a) (i) the

fixed rate for each Class (other than the Class A-I and Class A-IO Certificates), subject to a step up in coupon to the extent provided below, or (ii) in the case of the Class A-I Certificates, one-month LIBOR plus the margin for such Class, or (iii) in the case of the Class A-IO Certificates, the

applicable rate set forth in the table on page 3; and (b) the Net Rate Cap.

Net Rate Cap: The "Net Rate Cap" is equal to the weighted average Net Mortgage Rate of the Mortgage

Loans, adjusted in the case of the Class A-1 Certificates to an effective rate for the related accrual period reflecting the calculation of interest on the basis of the actual number of days

elapsed during such period and a 360-day year.

Net Mortgage Rate: The "Net Mortgage Rate" for each Mortgage Loan is equal to the gross mortgage rate of such

Mortgage Loan less the sum of (a) the servicing fee rate and (b) the trustee fee rate.

Basis Risk Carryforward: On any Payment Date on which the amount of interest received by any Class of Certificates is

determined in accordance with clause (b) of the definition of Pass-Through Rate, the excess of:
(a) the amount of interest that would have accrued on the Certificates during the related Interest
Accrual Period had the rate not been so limited, over (b) the amount of interest accrued on the
Certificates during such period at the Net Rate Cap, and the aggregate of any such shortfalls
from previous Distribution Dates, together with accrued interest thereon (at the then applicable
Pass-Through Rate, excluding the Net Rate Cap for such class of Certificates), will be paid on

subsequent Distribution Dates to the extent funds are available therefore.

Optional Termination: The terms of the transaction allow for a clean-up call (the "Clean-up Call") which, subject to any

restrictions set forth in the transaction documents, may be exercised once the aggregate principal balance of the Mortgage Loans is less than or equal to 10% of the aggregate principal balance as

of the Cut-off Date of the Mortgage Loans included in the pool on the Closing Date.

Step-up Coupon

(after Optional Termination): After the earliest date on which the Clean-up Call may be exercised (the "Clean-up Call Date"),

the fixed Pass-Through Rates on the Class A-4, Class A-5, Class M-1, Class M-2 and Class B-1

Certificates will each increase by 0.50%.

Pricing Prepayment Speed:

The Class A-1 Certificates were priced to 28% CPR.

Advances:

The Master Servicer will make cash advances with respect to delinquent payments of principal and interest on the Mortgage Loans to the extent that the Master Servicer reasonably believes that such cash advances will be recoverable from future payments on the related Mortgage Loans

Certificates Priority of Distributions:

Available funds from the Mortgage Loans will be distributed in the following order of priority:

- 1) Interest funds, sequentially, as follows: monthly interest (a) first, current and unpaid interest, to the Senior Certificates, *pro rata* based on their respective interest distribution amounts, then (b) current interest, sequentially, to the Subordinate Certificates;
- Principal funds, to the Class A Certificates and Subordinate Certificates, each as described under "Principal Paydown" below;
- Excess Cashflow as principal to the Class A Certificates and Subordinate Certificates to build or maintain O/C, as described under "Overcollateralization Target;"
- Any remaining Excess Cashflow to pay previously unpaid interest and unreimbursed realized loss amounts sequentially to the Subordinate Certificates;
- 5) Any remaining Excess Cashflow, to pay Net Rate Carryover as provided below;
- 6) To the Class R Certificates, any remaining amounts.

Principal Paydown:

Prior to the Stepdown Date, or if a Trigger Event is in effect on such Distribution Date, 100% of principal will be paid to the Class A Certificates (as described under "Class A Principal Distribution" below), provided, however if the Class A Certificates have been retired, principal will be applied sequentially first to the Class M-1 Certificates, second to the Class M-2 Certificates and last to the Class B-1 Certificates.

On any Distribution Date on or after the Stepdown Date, and if a Trigger Event is not in effect on such Distribution Date, all Certificates will be entitled to receive payments of principal in the following order of priority: first to the Class A Certificates (as described under "Class A Principal Distribution" below) such that the Class A Certificates will have 26.80% Subordination, second to the Class M-1 Certificates such that the Class M-1 Certificates will have 16.80% Subordination, third to the Class M-2 Certificates such that the Class M-2 Certificates will have 9.50% Subordination and last any remaining principal to the Class B-1 Certificates.

Class A Principal
Distribution:

Unless the Subordination provided by the Class M-1, Class M-2 and Class B-1 Certificates has been reduced to zero, principal will be distributed to the Class A Certificates in the following order of priority:

 To the Class A-5 Certificates, their pro-rata share of the principal collections allocable to the Class A Certificates for that period multiplied by the Lockout Percentage described below:

<u>Month</u>	Lockout Percentage
1 – 36	0%
37 – 60	45%
61 – 72	80%
73 – 84	100%
85 and after	300%

2. Sequentially to the Class A-1, Class A-2, Class A-3, Class A-4 and Class A-5 Certificates until their respective principal balances are reduced to zero.

If the balance of the Class A Certificates is equal to, or in excess of, the stated principal balances of the Mortgage Loans, principal will be distributed pro rata among the Class A Certificates.

Credit Enhancement:

The Trust will include the following credit enhancement mechanisms, each of which is intended to provide credit support for some or all of the Certificates, as the case may be:

	Class	S&P/ Moody's	Credit Enhancement (at Issuance) (1)
i	Class A	AAA/Aaa	13.40%

- (1) Reflects total credit enhancement after O/C has been fully funded; it is expected that there will be little or no Overcollateralization on the Closing Date.
- Subordination. The Class B-1 Certificates will be subordinate to, and provide credit support
 for, the Senior Certificates, Class M-1 Certificates and Class M-2 Certificates. The Class M-2
 Certificates will be subordinate to, and provide credit support for, the Senior Certificates and
 the Class M-1 Certificates. The Class M-1 Certificates will be subordinate to, and provide
 credit support for, the Senior Certificates.
- 2. Overcollateralization. The credit enhancement provisions of the trust are, in part, intended to provide for the limited acceleration of the Certificates relative to the amortization of the Mortgage Loans, generally in the early months of the transaction. Accelerated amortization is achieved by applying certain Excess Cashflow collected on the collateral to the payment of principal on the Certificates, resulting in overcollateralization ("O/C"). By paying down the principal balance of the Certificates faster than the principal amortization of the Mortgage Loans, an overcollateralization amount equal to the excess of the aggregate principal balance of the Mortgage Loans over the principal balance of the Certificates is created. Excess Cashflow will be directed to build O/C until the Overcollateralization Target is reached. Upon this event the acceleration feature will generally cease unless necessary to restore the O/C to the required level.

3. Excess Cashflow, "Excess Cashflow" for any Distribution Date will be equal to the available funds remaining after distributions pursuant to clauses 1) and 2) as described under "Certificates Priority of Distributions."

Overcollateralization
Target:

Prior to the Stepdown Date, the Overcollateralization Target will be equal to 2.40% of the aggregate principal balance of the Mortgage Loans as of the Cut-off Date (the "Initial Target").

On or after the Stepdown Date, the Overcollateralization Target will equal 4.80% of the principal balance of the Mortgage Loans for the related Distribution Date, subject to a floor equal to 0.50% of the principal balance of the Mortgage Loans as of the Cut-off Date; provided, however, that if a Trigger Event is in effect on the related Distribution Date, the O/C target will be equal to the O/C target on the immediately preceding Distribution Date.

Allocation of Losses:

If a Mortgage Loan becomes a liquidated loan, the net liquidation proceeds relating thereto and allocated to principal may be less than the principal balance of such Mortgage Loan. In such a case, the amount of such insufficiency will be a "Realized Loss." Any Realized Losses on the Mortgage Loans not covered by Excess Interest or O/C will be allocated to each class of Subordinate Certificates in reverse order of their payment priority (first to the Class B-1 Certificates, then to the Class M-2 Certificates and last to the Class M-1 Certificates), in each case, until the respective class principal balance of each such class of Subordinate Certificates has been reduced to zero.
